# OHS Codes for Toilets & Washing Facilities Guide

## Occupational Health and Safety Code

### Quick Reference Guide

#### OHS Code: Part 24 - Toilets and Washing Facilities Requirements

##### Section 357, Toilet facilities:

This section specifies the minimum number of toilets to be provided at a work site for members of each sex, based on the number of workers of that sex at the work site. Rules by which toilets are substituted with urinals are also described. A work site may have only one toilet facility for the use of both sexes if:

- (1) The total number of workers at the work site is never more than 10, and
- (2) The door to the toilet facility can be locked from the inside.
- (3) If 3 or more toilets are required for men, employer may substitute not more than 2/3's of the toilets with urinals
- (4) If 2 toilets are required for men, an employer may substitute one of them with a urinal.

Number of Workers of each Sex	Minimum Number of Toilets for That Sex
1-10	1
11-25	2
26-50	3
51-75	4
76-100	5
> 100	6 plus 1 for each additional 30 workers of the sex in excess of 100
